Activities

Legal Advocacy

We provide evidence of threats or mismanagement of our natural resources to the legal community, encouraging the passage of new laws to stop the depletion of our natural environment.

Pass Environmental Protection Legislation (EPA)

Science & Monitoring

We assemble teams of staff and volunteers to collect data while patrolling Bahamian lands and waters. The data is monitored to detect changes in conditions and denote problem areas or threats.

Pass Freedom of Information Act (FOIA)

Community Outreach

We offer adult and student educational programs that teach the necessary delicate balance and relationship of us to our unique Bahamian ecosystems, and how together we thrive and are protected by its bounty.

Halt Unregulated Development

Mitigate Oil Pollution

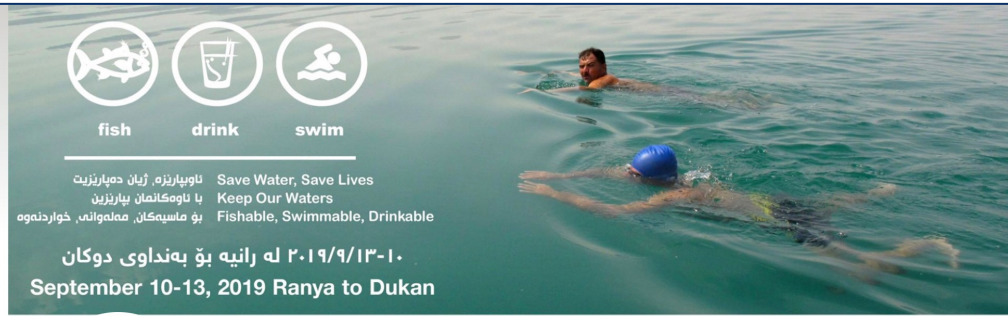

Provide Land and Marine Parks

Promote Sustainable Fishing

Our Yarra: healthy, protected and loved

Enlightened, Green, and Fearless | Senglong Youk, Tonle Sap Lake Waterkeeper

By: Guest Contributor

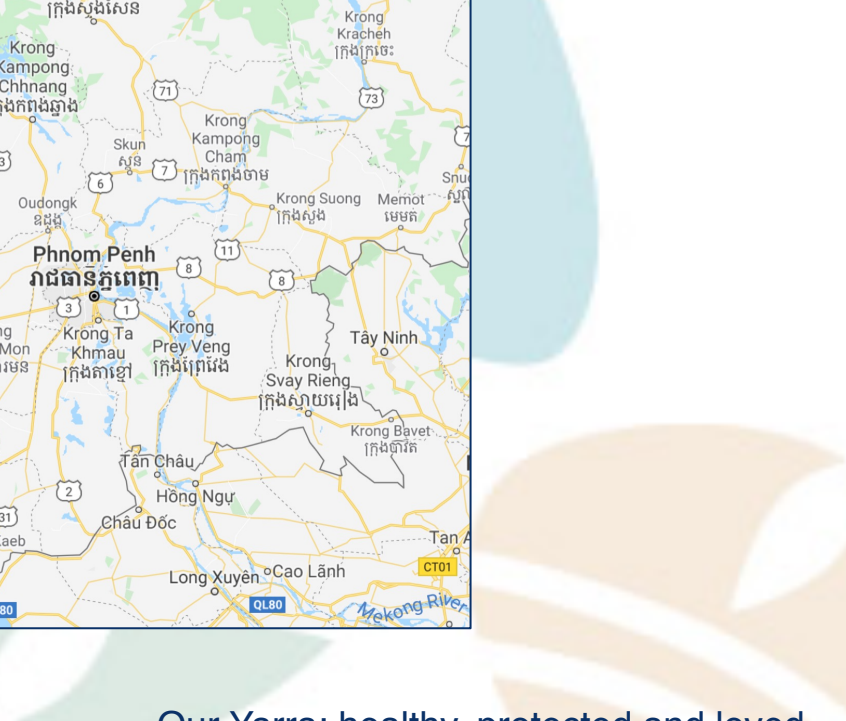

[← BACK TO THIS ISSUE](#)

Long a Buddhist monk, now a Waterkeeper, he's the champion of millions of Cambodia's poorest citizens.

Senglong Youk at the Tonle Sap

Our Yarra: healthy, protected and loved

Yarra River Protection (Willip-gin Birrarung murrong) Act

Thank you

Three stylized, overlapping leaves are positioned in the lower right quadrant of the slide. The top leaf is light blue, the bottom-left leaf is light green, and the bottom-right leaf is light orange. Each leaf has white curved lines representing veins.

Our Yarra: healthy, protected and loved
